## What is a Purebred Dog?

It is commonly accepted that a purebred dog is a dog with known and documented ancestry from a breed's foundation stock. A hybrid is not considered purebred, although crossbreds from the same two breeds of purebreds can have "identical qualities".

The difference is that hybrids do not breed true (meaning that progeny will show consistent, Replicable and predictable characteristics), and can only be reproduced by returning to the original two purebred breeds. Only documentation of the ancestry from a breed's foundation stock determines whether or not a dog is a purebred member of a breed."
