3. It was also noted that most Griffon owners are hunters. They are usually not interested in the shows.

New Business:

1. Katherine mentioned that the Kennel Club in her area has a new facility along with an area size of 2 ½ acres. This will make her area a better draw for larger events.
2. The Fire conditions in Globe AZ were discussed. Carol mentioned that the fires currently have affected 150,000 acres of National Forest area. Carol's ranch of 469 acres is very close to the fire.
3. Carol also reported that she lives off the grid and has been having power problems with her solar power batteries, which store power for their ranch. In the updating process of some of her equipment the solar powered batteries failed.
4. Carol also announced that her husband Jim is preaching at one of the local churches after being confirmed. He gave an excellent sermon on the preceding Sunday.

The next meeting will be scheduled when Carol knows her work dates.
